

# The Wisconsin Laborers Apprenticeship Program

## Construction Craft Laborer Apprenticeship

Business owners in the construction industry know that to be competitive in today's market, they put it all on the line, every day. **The Wisconsin Laborers Apprenticeship Program** is one of many tools that we offer to help your company be successful, every day.

We supply fully-trained, skilled employees that know the industry inside and out, from the bottom up. Our program fosters high quality people that understand the importance of teamwork.

The Construction Craft Laborer is a highly diverse trade that offers work opportunities across all sectors of the construction industry. **The Laborers' Apprenticeship Program** is uniquely designed to provide the classroom, hands-on, and technical skills training required to sustain the construction industry with safe and productive workers and consists of:

- 3 year training program
- 4,000 hours training on the job
- 400 classroom hours

## Contractor Eligibility & Application Requirements

Are you a contractor signed to a Building Agreement, Heavy/Highway Agreement, Sewer & Water Agreement or the Asbestos Agreement with the Wisconsin Laborers?

Do you have enough journeymen to support the apprenticeship ratios?

If your answer is YES... you need to contact us today!
